Shortcuts

Access keys are shortcuts to common functions accessed by typing a letter with either the Alt (PC) or Ctrl (Mac) key:

PC	Mac	Function
Alt-F	Ctrl-F	Search
Alt-J	Ctrl-J	NewJournal
Alt-N	Ctrl-N	NewTiddler
Alt-S	Ctrl-S	SaveChanges

When editing a tiddler:

Control+Enter or Control+Return Accepts your changes and switches out of editing mode (use Shift+Control+Enter or Shift+Control+Return to stop the date and time being updated for MinorChanges)

Esc Abandons your changes and reverts the tiddler to its previous state

In the search box:

Esc Clears the search term

Startup parameters

Example:

http://www.tiddlywiki.com/#open:HelloThere

open:title Opens the tiddler with the specified title

start:safe Switches to safe mode

search:text Performs a search for the specified text

tag:text Displays tiddlers tagged with the specified tag

newTiddler:title Opens a new tiddler with the specified title in edit mode

newJournal:titleFormat Opens a new tiddler with the specified DateFormatString: #newJournal:"YYYY MMM DD"

ToolbarMacro commands

<<toolbar cancelTiddler>> Abandons any pending edits to the current tiddler and switches it the default view

<<toolbar closeOthers>> Closes all other open tiddlers except for any that are being edited

<<toolbar closeTiddler>> Closes the current tiddler regardless of

whether it is being edited

<<toolbar deleteTiddler>> Deletes the current tiddler

<<toolbar editTiddler>> Switches the current tiddler to the current edit view

<<toolbar jump>> Offers a pop-up menu to jump directly to any of the currently open tiddlers

<<toolbar permalink>> Changes the browser address bar to a permalink to the current tiddler

<<toolbar references>> Offers a pop-up menu displaying the tiddlers that link to the current one

<<toolbar saveTiddler>> Saves any pending edits to the current tiddler, and switches it to the default view
